DETAILED ACTION

Continued Examination Under 37 CFR 1.114

A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on 03/11/2008 has been entered.

Claims 1, 4-8, 11, 14-18, 21, and 23-24 are pending in this office action.

See previous action regarding the pending claims above.

Applicants fail to present any arguments to differentiate the prior art of record and the claimed invention. Therefore, the previous rejection still stands.

Claim Rejections - 35 USC § 101

35 U.S.C. 101 reads as follows:

Whoever invents or discovers any new and useful process, machine, manufacture, or composition of matter, or any new and useful improvement thereof, may obtain a patent therefor, subject to the conditions and requirements of this title.

the claimed invention is directed to non-statutory subject matter. Claims 1, 4-8, 11, 14-18, 21, and 23-24 lack application that produces a useful, concrete and tangible result. The claims recite automatically initiating a chat session and overlapping a chat dialog box over a web page. However, the claims fail to recite the steps that indicate what happens after the overlapping steps. It must be noted that in determining whether a claim is for "practical application", the focus is not on whether the steps taken to achieve

Art Unit: 2154

a particular result are useful, tangible and concrete, but rather that final result achieved by the claimed invention is “useful, tangible and concrete”. Correction is requested.
